## PROPOSED AMENDMENT

Examiner R. L. Deberadinis  
571-273-2049 fax  
571-272-2049 tel.

Per our telephone conversation this morning, we have amended claims 18-19 to include similar limitations of claim 1, e.g., a power server, a primary and at least one secondary processing device, and an independent voltage regulator for the secondary processing device. Thus, we believe claims 18-19 would also be allowable. Applicants agree to cancel claims 12-17 without prejudice or disclaimer. As proposed set of substitute claims is attached. If the amendment is acceptable, applicants also agree to entry by examiner's amendment.

Favorable reconsideration is requested.

Respectfully submitted,  
McINTYRE HARBIN & KING
